- Adult & Juvenile Corrections
- Parents, Guardians,
- Profit and Non-Profit Organizations
- Youth Groups
- Concern Citizens

CHILDREN FIRST! NOT ON MY WATCH

The trained Security Officers are Sheep Dogs, gentle and always watching over the sheep for wolves.

They may appear lazy and unaware of wants going on but I assure you that after our training they are alert with their head on a swivel.

CHILDREN FIRST...

Working to Enhance School Safety, Increase Preparedness:

In the wake of the recent attack in Parkland, Florida, we are assisting school districts in stepping up their actions to better protect our students, staff and visitors against guns and other weapons violence, as well as other potential threats. We provide professional hand-on training, exercises, and preparedness activities for schools nationally and internationally to increase the security of schools across the country and the communities in which they are located.

Responsibility:

While state and local partners have primary responsibility for the physical security at schools, through trainings, best practices guides, workshops, and tabletop exercises, we hope to improve awareness and foster a culture of preparedness. We are working with partners around the country to harden these vulnerable soft targets. By ensuring administrators and stakeholders in the K-12 and higher education communities, teachers, parents, law enforcement, and first responders are part of this effort, we can better educate the entire community on threats to school safety.

Knowing What to Do:

Disasters come in many forms, can occur anywhere at any time and run the gamut from natural causes such as earthquakes, fires, floods, and severe storms to man-made causes such as an active shooter and chemical spills. Knowing how to react and respond in a time of crisis can go a long way to keeping you and your students out of harm's way.

We Offer Early Warning Training:

- Understanding the Reason for Security
- Introduction to School Safety
- School Security Officer Vs Security Guard
- School/Community Assessment
- Street and Youth Violence
- Weapons on Campus & in the community

- Cultural Diversity/Bias Hate Crimes
- Violence Prevention
- Gang Intervention and Prevention
- School Policy and Security Protocols
- Confidentiality

Each school day, our nation's schools are entrusted to provide a safe and healthy learning environment for approximately 55 million elementary and secondary school students in public and nonpublic schools.

Families and communities expect schools to keep our children and youths safe from threats and hazards. In collaboration with their local government and community partners, schools can take steps to plan for these potential emergencies through the creation of a school Emergency Operations Plan and professional training. We specialize in training security officers and administrators

Calling us is the first step in addressing School Safety and Security.
